TOWN WARRANT

THE STATE OF NEW HAMPSHIRE.

[SEAL]

To the Inhabitants of the Town of Henniker, in the County of Merrimack, in said State, qualified to vote in Town Affairs:

You are hereby notified to meet at Town's Meeting House in said Henniker on Tuesday, the ninth day of March next, at nine of the clock in the forenoon to act upon the following subjects:

1. To choose all necessary town officers for the year ensuing.
2. To raise such sums of money as may be necessary to defray town charges for the ensuing year, and make appropriation of the same. Including electric lights and interest on Cemetery Trust Fund notes.
3. To hear and act upon the reports of town officers, library trustees, trustees of trust funds and committees, and to fix the amount to be paid for collection of taxes.
4. To see what sum of money the town will vote to raise to repair highways and bridges.
5. To see what sum of money the town will vote to raise for the maintenance of its state aid and its trunk line roads.
6. To see what sum of money the town will vote to raise and appropriate for permanent improvement of Contoocook Valley trunk line, Chapter 93, Laws of 1915.
7. To see if the town will vote to accept the provisions of Chapter 117, Laws of 1917, on a section of the Contoocook

Valley road, so-called, and appropriate, or set aside from the amount raised for highway work the sum of \$500 for this purpose.

8. To see what sum of money the town will vote to raise and appropriate to defray the expense of observing Memorial Day.

9. To see what sum of money the town will vote to raise in addition to that required by law for the support of Tucker Free Library.

10. To see what sum of money the town will vote to raise for the maintenance of the fire department.

11. To see what sum of money the town will vote to raise and appropriate for the purpose of defraying the cost and expense during the ensuing year of providing and maintaining hydrant service for the extinguishment of fires.

12. To see if the town will vote to instruct the highway agent to divide the town into two or more districts, and appoint a patrolman for each district, who shall have charge of same, under the supervision of said highway agent.

13. To see if the voters will accept a pecuniary gift of a trust fund from Leander A. Cogswell, upon certain terms and conditions, and to pass all votes necessary thereto.

Given under our hands and seal, this tenth day of February, in the year of our Lord nineteen hundred and twenty.

EDWARD CONNELLY,
ARTHUR C. GRAVES,
W. C. GOSS,

Selectmen of Henniker.

A true copy of Warrant—Attest:

EDWARD CONNELLY,
ARTHUR C. GRAVES,
W. C. GOSS,

Selectmen of Henniker.

*To the Town of Henniker, in the County of Merrimack and
State of New Hampshire:*

I, Leander A. Cogswell, of said Henniker, as a tribute to the loving memory of my deceased parents, D. Warren Cogswell and Eliza L. Cogswell, and as an act of genuine regard for my native town, do hereby make and deliver to said Henniker this deed of gift upon the terms and conditions as hereinafter set forth. It would be a pleasure to me if the town would erect a suitably inscribed tablet to perpetuate this memorial.

1. I hereby give to said Henniker the sum of Fifty Thousand Dollars (\$50,000), as evidenced by my accompanying check for that amount and payable to its order, but in trust, however, to be forever held, invested and reinvested by it through its legally constituted trustees and to be known as the "D. Warren and Eliza L. Cogswell Memorial Fund."

2. I direct, and this direction shall be a continuing and an express condition of this gift, that the net annual income arising from the foregoing trust fund shall each year be expended by said trustees, through such proper agents, trustees or officers of said town as may be established by it to carry out the objects herein designated, for the purposes and in the proportions following: Seventy per cent (70%) thereof for the support, maintenance and benefit of the Henniker High School and all other grades of public schools which are now or may hereafter be located in the Henniker High School building, so-called, in said Henniker, or which may be similarly located in any other building, in said Henniker, devoted to like purposes; provided, however, that the school board of the school district in which said schools are or may be located shall apply during the current year such amount of the school money, received by them from any source, for the support and maintenance of the public schools of said Henniker herein particularly described and alluded to, as they would by law be required to expend if the trust fund hereby created

were not in existence; ten per cent (10%) thereof for the support, maintenance and benefit of the Tucker Free Library, located in said town; ten per cent (10%) thereof for the care, repair and benefit of the Henniker Cemetery association and the lots therein, located in said town; and ten per cent (10%) thereof for shade or ornamental trees to be placed along highways or other public places, and for parks or commons, all to be located in said town and within a radius of one-half ($\frac{1}{2}$) mile from what is now known as Proctor Square.

3. I further direct, and this direction shall also be a continuing and express condition of this gift, that the expenditure by said trustees of the net annual income arising from said trust fund as hereinbefore set forth shall not at any time be controlled, regulated, supervised, changed or modified by the State of New Hampshire, or by the State Board of Education, or by any other local or State Board, or by any other public officer or agent, or by any officer, agent or other representative of said State or said boards.

4. From time to time I direct said trustees, having the custody of said trust fund, to advance to said town so much of the principal thereof as may be needed by it to pay the principal of said Town of Henniker Water Bonds, heretofore issued by and now outstanding against it, to the extent of Fifty Thousand Dollars (\$50,000), as and when said bonds shall become due and payable. For the amount and at the time of each and every such advancement, made by said trustees to said town for the purposes aforesaid, the Town of Henniker shall execute and deliver to said trustees its promissory note payable to the order of said trustees at such time as said town may decide; the interest to be paid on each of said notes shall from time to time be adjusted by said selectmen and said trustees, so that the income thereon shall at all times be reasonable as compared with the income which said trust fund might earn if invested in other legal investments, but in no case shall the interest on any such note be less than four per cent (4%) per

annum; said notes shall be signed by the selectmen of Henniker and countersigned by its treasurer. It is my wish that eventually the entire principal of the trust fund hereby created shall be thus permanently invested in the notes of said Henniker and that its entire income shall be derived therefrom; it is also my wish that said notes may run an indefinite period of time, but the statute of limitations shall not apply to any of the same.

5. As a condition to the foregoing gift, the present water works system, as now or hereafter maintained in said Henniker, shall be henceforth and forever known as the "Cogswell Spring Water Works."

I hope that the foregoing offer may be accepted by the Town of Henniker.

Respectfully submitted,

LEANDER A. COGSWELL.

Dated January 10, 1920.

W. O. FOLSOM,
W. A. CONNOR,
A. G. PRESTON,

Auditors.

Henniker, N. H., February 3, 1920.

REPORT OF BOARD OF HEALTH.

During the year thirteen cases of contagious disease have been cared for. There have been reported one case of whooping-cough, one of diphtheria, two of scarlet fever, three of

mumps, three of measles and three of tuberculosis, all of which have been properly quarantined and cared for.

Five houses have been disinfected.

Two deaths have occurred from tuberculosis.

One man has been paid wages while in quarantine.

Samples of water from the town system and from four private wells have been examined by the state laboratory and all found passably good.

The services of the Public Health nurse for the last three months, while they have not interfered at all with the duties of the health officer, appear to have shown their value to the community and we believe will in the future tend to the better health of the people generally. Total expense of the department for the year is \$83.76.

C. B. CHILDS,
Health Officer.

PUBLIC HEALTH ASSOCIATION.

From the time United States entered the World War, every patriotic citizen worked or gave to the American Order of the Red Cross—an order that knows no sect, race or creed, but gives its all for the betterment of humanity. But as the soldiers returned to civil life, they no longer needed the help, then the Red Cross turned their work in this country to making the United States better as regards health, sanitation and infant welfare, and any community that would establish a Public Health Association and support a nurse, the Red Cross would help financially. Henniker citizens, ever on the alert to help along our progressive town, met and formulated plans for an association. The following officers were elected:

President, Harrie W. Balch; vice-president, Dr. G. H. Sanborn; secretary, Mrs. Alice V. Colby; treasurer, W. N. Whitney; directors, Mrs. John H. Falvey, Silas Rowe, Dr. T. H. Holder. The Association secured the services of an overseas

Red Cross nurse, Miss Margaret O'Hara, who came highly recommended, and we are sure will give satisfactory work to each and all.

The rules governing the nurse are as follows:

1. The Henniker Public Health Association provides a trained nurse whose duty is to visit the sick in need of nursing care, to care for them in their homes, to teach the families they visit the simple rules of nursing and hygiene.

2. The nurse responds to every new call, but she continues with the care of the case only in conjunction with the physician in attendance.

3. Her visit shall not, as a rule, exceed over one hour.

4. The nurse is on duty from 8 a. m. to 5 p. m., has one afternoon a week and Sunday off duty.

5. Only emergency calls are taken at night. Transportation must be furnished to and from such cases.

6. Only necessary visits are made on Sundays and holidays.

7. The fees are as follows:

Ordinary visits, 10c to 50c.

All night visits, \$2.00 to \$3.00.

Surgical assistance, \$2.00 to \$3.00.

Obstetric assistance \$2.00 to \$5.00.

All money paid the nurse for visits is turned over to the Association to help pay expenses. This work is for the benefit of our own people and we trust it will be liberally supported.

The work done by the nurse for November:

Nursing visits	38
Infant welfare visits	35
Prenatal visits	4
Social visits	45

Total 122

December:

Nursing visits	114
Infant welfare visits	15

Prenatal visits	8
School visits	10
Social visits	48

Total	195
-------------	-----

The duties of the Public Health Nurse:

1. Bed-side nursing care given a patient in their own home.
2. Prenatal nursing, supervision of the physical condition of pregnant women.
3. Maternity nursing, attends the confinement if possible and two visits daily.
4. Infant welfare nursing and continuation of maternity nursing, constant oversight of the health of the babies.
5. Child welfare nursing. The extension of infant welfare, includes children of the pre-school age.
6. School nursing, examining for defects.
7. Tuberculosis work, constantly seeking undiscovered or hidden cases. Giving nursing care when necessary.

The Public Health Nurse is the messenger who brings the last word of science to the place where it must be really applied if our knowledge is to be effective.

One hundred and sixty children have been examined.

HARRIE W. BALCH,
President.

WATER WORKS DEPARTMENT.

Report of Board of Water Commissioners.

The Board of Water Commissioners herewith submit their sixth annual report. The financial report is for the year ending January 31, 1920. The statistical report of pumping station is for the year ending December 30, 1919. No new construction work has been done the past year. One new service connection was made to the main pipe line.

Source of Income.

Amount of 1918 rents collected and paid town treasurer, \$148.15. The net income from water rents from January 1, 1919, to July 1, 1919, amounted to \$1,006.06. From July 1, 1919, to January 1, 1920, \$1,085.29, making total rents for the year, \$2,091.35. This shows a loss of \$55.09 from the amount received in 1918. Uncollected rents for 1919, \$5.50. Abatements for 1919, \$34.10. Net amount paid town treasurer.

Pumping Station.

The operating expenses for the past year which includes services for attendance, fuel, oil and supplies, was \$381.11. This shows an increase in the cost of maintenance over the amount paid in 1918 of \$113.85—568,929 gallons more water was pumped into the reservoir in 1919 than was pumped in 1918. This partially accounts for the extra cost of maintenance, although the cost of oil and labor has advanced from what it was in 1918.

Statistics.

The following statistical table shows that during the year the pump was used 71 times; 4,348,758 gallons pumped into the reservoir; 568,929 gallons more than was pumped in 1918. The actual running time of the engine was 358 hours, 35 minutes.

Cost of maintenance for the year is as follows:

Cost of attendance for 12 months.....	\$234.00

REPORT OF SUPERINTENDENT OF SCHOOLS.

To the School Board of the Town of Henniker:

I herewith submit my fourth annual report as superintendent of Henniker schools.

The result of last year's work, in all the schools below the high school, notwithstanding the many forced vacations because of influenza, and the many individual absences because of sickness, was very satisfactory. A larger per cent of promotions from the several grades was made last June, than in any previous year since my connection with the schools. At the graduating exercises, nine certificates of promotion to high school were granted to the Junior High school graduates. Only two from this school failed of promotion.

The development of the Junior High School course was so satisfactory, that I felt justified in asking for its recognition as such from the State Board, and have received their full approval of it. The Junior High school is now a legitimate part of an approved six year high school. Certificates of promotion to high school, heretofore granted according to your custom at the successful completion of eight years of school work, should now be granted, if granted at all, at the end of six years' of work, for the high school course, as now organized, properly begins with the seventh year. This is a decidedly progressive step and is working out in a very satisfactory manner.

The discipline of the high school, so lax at the latter part of last year, has this year been decidedly improved and deserves special mention in this report.

Henniker has been fortunate, in comparison with many towns in the state and nation, in having teachers thus far for all its schools. Every teacher employed, too, had had previous experience, or some special training, or both; a very unusual thing in the small towns this year.

The problem of securing teachers for the next year promises to be a more serious one than it has been this. Teachers

are being driven from the profession in large numbers by economic conditions. It is estimated that 143,000 left the profession last year—nearly one-fifth of the entire teaching force of the country; that their places, if filled at all, were filled by young, inexperienced and generally incompetent teachers; that there are 20,000 schools closed in the United States and 500,000 children failing to receive instruction this year in consequence.

Education means too much to a democracy to allow this condition to long exist. The teaching profession must be more generally respected, and made more attractive financially, if we expect to keep those now engaged in teaching and attract those of good ability into the profession. The lawyer, the doctor, the young business man, the apprentice in most every kind of work, looks forward to success, property and a competence. Teachers struggle along on less than a living wage, looking forward to what? To the time when their services will no longer be desired because of old age, and they must retire with nothing, not even a pension, after years of faithful public service of the most important kind. When the nation, states and towns awake to the real meaning of no schools and poor schools the teacher problem will be safe. Such an awakening is taking place everywhere. Let our own community be among the first to awake to the situation and be ready to meet it.

The teacher cost next year of maintaining our schools up to standard will be, as nearly as I can estimate it now, from \$1000 to \$1200 more than this year. Here is the condition and we must meet it. I feel sure you fully realize the situation and are ready to meet it.

We spoke last year of the general awakening to the need of more careful attention in our schools to sanitation, health and physical training. This year we have given considerable attention to this matter. We have required schoolhouses to be kept cleaner and children to be kept cleaner. Every school

building has been equipped with towels, soap and washing facilities, and teachers instructed to see that these things are used. Physical training has been introduced in every school; and the district nurse is being employed as a school nurse to the great advantage of our children.

The social life of the pupil, it seems to me, demands our serious consideration. It is natural for young persons to seek social pleasures. They will have them and should have them. Have we any responsibility in this matter? Shall we offer them social pleasures under proper conditions or let them get them themselves under any kind of a condition? It seems to me the former way is to be preferred. The teachers have offered me their services in bringing this about, and arrangements have already been made for using the school hall once in two weeks for this purpose.

There are many repairs and some alterations to be made on the school buildings to have them meet even the minimum requirements of the State Board. The repair appropriation will necessarily be larger than usual, for these repairs must be made, if we are to receive state aid.

We are endeavoring to raise the standard of Henniker schools, by having them do the essential things in school work and do them well; by having the teachers realize that the child, not the subject, is the important thing; by seeing in the child of today the citizen of tomorrow, and directing our principal efforts to making that child fit to best perform its duties as a citizen, for this, after all, is the main purpose of the schools.

Respectfully submitted,

FRED S. LIBBEY,

Superintendent of Schools.

Henniker, N. H., February 9, 1920.

SCHOOL BUDGET.

In submitting our annual estimate of money needed to be raised for the support of schools for the year commencing September 1, 1920, we have taken into account the great advance in the cost of material and labor over former years, and the absolute certainty that the salaries of the teaching force will have to be advanced if we want to keep the very able teachers we now have, and thus keep the school up to the high standard, they now are, and make improvement each year over the previous year.

Supplies are nearly double from prices two years ago, and after careful consideration of these facts, we submit the foregoing figures for your best judgement and decision.

General fund for support of High school.....	\$4,250.00
Textbooks and scholars' supplies	300.00

\$4,550.00

General fund for support of Elementary schools,
the sum of \$5 on \$1,000 of the 1920 valuation.

Salaries and expenses of district officers.....	275.00
Salaries and expenses of superintendent, in excess of amount allowed by the state.....	200.00
Repairs of schoolhouses.....	700.00

\$5,725.00

Per capita tax of \$2 on 250 pupils.....	500.00
--	--------

Should the State Board require the district to remodel one of its schoolhouses as proposed for each year, we will be obliged to raise a sum sufficient for that purpose in addition to the above amount.

PUBLIC TRUST FUNDS.

The Board of Public Trust Funds herewith submit their report for the year ending January 31, 1920. The aggregate amount of invested securities of the Tucker Free Library, par value, \$36,140.82. The character of these investments will be found upon another page of this report.

Promissory note, Metropolitan Steamship Co., payable to the treasurer of the Tucker Free Library for \$150.00, was paid January 27, 1920. This note represented one year's interest due on the three shares Metropolitan Steamship Company bonds, amounting to \$3,000, which was paid in full April, 1917. The money received from the sale of these bonds was invested in United States Liberty bonds.

The aggregate amount of invested securities of Cemetery Trust Funds January 31, 1920, amount to \$5,375.26. There has been received by the trustees since our last annual report was issued, \$650.00. The fund is invested as follows: Town of Henniker notes \$4,825.26, United States Government Liberty and Victory Bonds, \$550.00. Out of an available yearly income of \$178.80 there was expended by the agents the past year \$158.82. There are now 49 burial lots situated in the various yards in town that are being maintained by the income of public bequests. Since January 31, 1919, the following bequests have been received:

May 1, 1919, received from the estate of Margaret Douglas, \$100; George A. Eastman estate, \$200; Jannette C. Allison estate, \$100; Edgar M. Clough estate, \$100. December 1, 1919, received from Hannah B. Whitney estate, \$100, income to be used on lot in New Cemetery where Zedoh Dustin is buried. From Henry E. Merrick estate, \$50.00.

The fifteenth annual report of the Tucker Free Library for the year ending January 31, 1920, is herewith presented.

We now have over three hundred active subscribers. The school children are making more frequent use of the reference books, and reading lists have been placed on shelves in the reading room from which the different classes select their books.

The friends of the library continue to remember it with gifts which are much appreciated.

Miss Helen G. Adams of Boston has very kindly added the Independent to our list of magazines. Two books of fiction were presented by Mr. Harry Preston, a Bird book by Mr. George Preston and son, two books on kindergarden work by Miss Nettie Savage, a mounted Siberian fitch, by Mrs. Ada (Clark) Payne. Mrs. Mary Marsh loaned a pair of baby shoes for exhibition, made for her by her father; also some Christian Science Journals. Mrs. Henry Baker loans the Messenger of the Sacred Heart each month for the reading table. The Misses Eastman presented thirty-seven books of fiction and six solid books which made a very welcome addition to our shelves. Mrs. Alice Colby gave four books of fiction, one juvenile book was received from Frank Sargent. Part of the Communion service presented to the Congregational church, November 8, 1833, by John C. Proctor, has been placed in the museum. Mr. Charles Burnham loaned the German helmet won by him in the Victory Loan drive. Miss Annie Stanyan of Boston sent us a book of poems by Capt. John M. Stanyan.

The magazine list is as follows: McClures, Everybody's, Pictorial Review, Delineator, World's Work, Good Housekeeping, American, Woman's Home Companion, Review of Reviews, St. Nicholas, Century, Little Folks, Literary Digest, Munsey's, Ladies' Home Journal, Saturday Evening Post, Harpers, Outing, Scientific American Weekly and Monthly, American Boy, Country Life, National Geographic.
